Research Support

Subject guides updation

The LUMS Library updated the subject guides for the new semester through a world-class content management system (LibGuides) for the LUMS community. Through the system, users will be able to find their required contents on a specific course through a customised interface. This service will provide a smooth and enhanced experience for the library users by saving time and efforts to find the relevant materials quickly.

Annual book fair

The LUMS Library organised a one-day book fair where more than 20 leading booksellers participated and displayed their latest titles on core teaching and research subjects as well as books of general interest. LUMS faculty, students and staff took a keen interest in the books and purchased them at discounted rates, offered especially for the LUMS community.
**Special discount for the LUMS community**

To promote the habit of reading, the Library arranged discount coupons on the purchase of books from the bookshop, Readings, which has a huge variety of books (English and Urdu) in literature, fiction, poetry, history, Islam, children and many academic categories on economical prices. The library received an overwhelming response and additional coupons had to be provided for the LUMS community.

Discounts were also offered for the LUMS community by Liberty Books on online purchase of books. Liberty Books has a large variety of books on literature, fiction, poetry, history, Islam, children and all academic categories in English and Urdu.

**Library membership service for external users**

The external library membership service increased during the year due to the recognition of the library resources and services. The Library membership fee was increased from PKR 4000 to PKR 6000 due to inflation. This generated 25% extra revenue from its target.

**Access to Research4Life**

Access to Research4Life was provided to the LUMS community. Research4Life is a public-private partnership of WHO, FAO, UNEP, WIPO, Cornell and Yale Universities, the International Association of Scientific, Technical & Medical Publishers and over 200 International Scientific Publishers. It provides online access up to 77,000 peer-reviewed international scientific journals, books and databases.
