Orientation Week 2018 Concludes at LUMS

After the summer break, the LUMS campus saw its vitality return as over 2200 freshmen came on campus for the LUMS Orientation Week (O Week 2018). The O Week, which commenced on August 28, 2018 and concluded on September 1, 2018, started with an orientation session for parents and students of the undergraduate Class of 2022 held at the LUMS Syed Maratib Ali Sports Complex. A dynamic mix of students, parents, and faculty members filled the auditorium. The students’ excitement was only exceeded by their parents’, whose smiles showed how proud they were of their children. The entire LUMS community welcomed the new class on campus…

LUMS Holds Young Writers Workshop and Short Story Contest 2018

The LUMS Young Writers Workshop (LYWW) is a one of a kind opportunity for young writers in Pakistan: an all-expenses-paid residential creative writing workshop where selected participants have an opportunity to hone their craft of fiction writing. The workshop has hosted eight writers every year ever since its inception in 2012. This year, the number and quality of submissions superseded all previous years amounting to over 300 submissions. The eight most outstanding short story writers were invited to LUMS to hone their craft under the mentorship of novelist and translator, Bilal Tanweer.

CHANGE THE WORLD 2018

Making the World Great Again

Our fourth annual Change the World list spotlights companies pursuing core business strategies in ways that are good for people and the planet.

CASE NO. 22

The Wind at Green Energy’s Back
By MATT HEIMER

Clean-energy projects struggled to attract financing. Then Bank of America found the formula that lured more money into green investing.

CASE NO. 40

100 Fastest-Growing Companies

The 32nd edition of Fortune’s list ranks the top performers worldwide in revenues, profits, and stock returns over the past three years.

CASE NO. 55

SPECIAL REPORT
Blood, Sweat, and Batteries
By VIVIENNE WALT

Two-thirds of the world’s cobalt, a vital ingredient in smartphones and electric cars, comes from one of the planet’s poorest countries. All too often it is mined by children.

Overview

With contributions from Linda Darling-Hammond, Michael Fullan, Pasi Sahlberg, and Martin Carnoy, Global Education Reform is an eye-opening analysis of national educational reforms and the types of high-achieving systems needed to serve all students equitably. The collection documents the ideologically and educationally distinctive approaches countries around the world have taken to structuring their education systems. Focusing on three pairs of case studies written by internationally acclaimed experts, the book provides a powerful analysis of the different ends of an ideological spectrum----from strong state investments in public education to market-based approaches.

An introductory chapter offers an overview of the theories guiding both neoliberal reforms such as those implemented in Chile, Sweden and the United States with efforts to build strong and equitable public education systems as exemplified by Cuba, Finland and Canada. The pairs of case studies that follow examine the historical evolution of education within an individual country and compare and contrast national educational outcomes. A concluding chapter dissects the educational outcomes of the differing economic and governance approaches, as well as the policy implications.
